Engineering Products Department • Camden, N. J.

BROADCAST EQUIPMENT SALES POLICY

FOREWORD

The present statement sets forth basic conditions under which RCA sells broadcast equipment as described in this catalog, and notes certain supplemental information. This statement does not apply to the sale of tubes or sound film recording equipment, for which separate standard sales and lease policies are in effect.

RCA broadcast equipment is sold directly through RCA Regional representatives, who are familiar with broadcast equipment and related problems.

CONTRACT PROCEDURE

All sales based on orders for transmitters, antennas and custom built or special apparatus and on orders over \$5,000 are made in accordance with the conditions of the RCA Standard Proposal Form for the sale of broadcast equipment and with any agreement stipulated thereon for individual customers.

PRICES

RCA broadcast equipment prices are net f.o.b. factory or warehouse, which is Camden, New Jersey, for most items. These prices do not include any federal, state or local taxes based upon use or measured by sale or use and unless otherwise noted do not include federal excise tax. Any such taxes in effect at the time of shipment will be billed separately or will be included in the prices when required and will be due and payable upon delivery.

RCA's prices do not include installation or installation supervision unless specifically mentioned in a written condition or proposal. Purchaser assumes responsibility for installation and operation of the equipment as well as for obtaining all necessary licenses, permits, etc.

NOTE: The service of factory trained personnel who are specialists in the supervision of the installation of broadcast equipment and in its maintenance and repair may be obtained through an order placed with the RCA Service Company, Inc. It is recommended that the advantages of this service be considered at the time of purchase of any major broadcast equipment.

In the case of orders under the Standard Proposal Form the billing prices are based on those prices effective at the date of the order to the extent indicated in the final contract. In the case of orders not under the Standard Proposal Form the billing prices are those prices in effect on the date of shipment.

RCA endeavors to keep its published prices current; however, all published prices are subject to change without notice.

PAYMENT

Terms of payment are subject to approval of RCA's Credit Department at Camden, New Jersey.

DELIVERY

RCA's delivery of broadcast equipment will be f.o.b. factory or warehouse, which is Camden, New Jersey for most items. The Purchaser shall be responsible for all transportation charges, and shipments will normally be forwarded with shipping charges "collect". As an accommodation, when specifically requested to do so by the Purchaser's order, RCA will prepay transportation charges and invoice them to the Purchaser as a separate item.

Delivery will be made to a carrier specified by the Purchaser, unless none is specified, in which event it will be to a common carrier selected by RCA. In the absence of specific routing instructions from the purchaser, RCA's judgment with respect to the selection of a route will be final.

As a special service with respect to shipments overland, by inland waterways or by air we carry All Risk Transportation Insurance for the benefit of our Broadcast Equipment customers, and your interests will be amply protected in all shipments of equipment while in transit by the methods

indicated above, at no additional expense to you, provided that you inspect all shipments upon receipt and report any shortages or damages at once to the carrier and to RCA.

RCA will endeavor to meet delivery schedules but it assumes no liability for damages of whatever kind for delays in delivery. No delays in delivery shall relieve the purchaser of his obligation of performance.

PATENT LICENSES

RCA broadcast equipment is licensed for radio telephone or television broadcast transmission under United States patents owned by RCA or under United States patents under which RCA is licensed.

PATENT PROTECTION

RCA, at its own expense, will defend any suit which may be brought against a purchaser of broadcast equipment from RCA for infringement of United States patents by the equipment furnished when sold or used for radio telephone or television broadcast transmission, and in any such suit will satisfy any final award for such infringement. This is upon the condition that the purchaser gives RCA prompt notice of such suit and full opportunity to conduct the defense thereof. No costs or expenses shall be incurred for the account of RCA without its written consent. If the purchaser's sale or use of such equipment for radio telephone or television broadcast transmission shall be prevented by permanent injunction, RCA shall substitute for the infringing equipment other equally suitable equipment or, at RCA's option, obtain for the purchaser the right to sell or continue the use of such equipment or, at RCA's option, take back such equipment and refund any sums which the purchaser has paid RCA therefore, less a reasonable amount for use, damage and obsolescence.

WARRANTY

Except for electronic tubes, which bear their own warranty which accompanies them at the time of their sale, RCA warrants its broadcast equipment to be free from defects in material and workmanship under normal use and service for a period of one year from the date of delivery. RCA's obligations under this warranty are limited to the repair or replacement of defective parts and the shipment of such repaired or replacement parts to the purchaser f.o.b. factory. Equipment furnished by RCA but listed as manufactured by another bears only the warranty given by such other manufacturer. No warranties other than those set forth herein are given or are to be implied with respect to broadcast equipment. In no event is RCA liable for consequential damages.

REPAIRED AND RETURNED APPARATUS

Before an apparatus is returned to RCA for repairs or adjustments shipping instructions and an identifying number should be obtained from the nearest RCA Regional Office. RCA assumes no responsibility for unauthorized returns.

EQUIPMENT MODIFICATIONS AND WITHDRAWALS

RCA reserves the right to make, without notice, modifications of the equipment described in this catalog without affecting its right to sell such equipment under orders based on the catalog description, provided, however, that the modifications shall not materially affect performance. These modifications of equipment may be made by RCA or its suppliers from time to time for reasons such as improvement in performance, simplification in design, or availability of material. RCA also reserves the right to withdraw from sale, without notice, any equipment described in this catalog.

ACCEPTANCE OF ORDER

No order shall be binding upon RCA until accepted by it in writing at Camden, New Jersey, and the banking, negotiation or other use of the down payment shall not constitute an acceptance by RCA. Orders received by Regional Offices will be forwarded promptly to RCA's Camden office.

OTHER RCA PRODUCTS

SOUND EQUIPMENT

THEATRE EQUIPMENT

16 MM PROJECTORS

MOBILE COMMUNICATIONS EQUIPMENT

“Other RCA” Equipment items included in this section of the catalog carry different warranties from those applying to “Broadcast Equipment” items shown in other parts of this catalog. For information regarding warranty, price or delivery on these items contact your nearest RCA Distributor or write direct to Engineering Products Department, Camden, New Jersey.

ORDERING INFORMATION

Apparatus prices have been arranged in the order of listing in the Broadcast Equipment Catalog and are indexed to catalog pages. Please refer to the type and MI number on the page listing the apparatus and then consult this price list in accordance with the page number. Prices on custom-built equipment and other items not listed may be obtained from your nearest field representative.

It is requested that your purchase orders specify the method of transportation desired. Otherwise, RCA will use its best judgment as to the cheapest method of transportation, although this may not always result in the most rapid delivery. Certain items, such as vacuum tubes, are usually shipped by express because of design of carrying container, insurance, etc.

NOTE: Master Item (MI) numbers used to identify apparatus on invoices and packing slips are given for each unit.

BROADCAST EQUIPMENT • AM—FM—TELEVISION

Ship equipment as set out on reverse side hereof in accordance with following terms:

1. PRICE

- (a) The price of the equipment, payable to RCA at its office in Camden, N. J., is due net within thirty (30) days after delivery. Payment for partial deliveries shall become due and payable similarly as deliveries are made. All prices are f.o.b. RCA's factory or warehouse.
- (b) The above price does not include any federal excise tax, or any federal, state or local taxes based upon or measured by sales or use. Any such taxes in effect at the time of shipment will be billed separately and will be due and payable upon delivery.
- (c) All prices herein are subject to adjustment to those in effect at the time of delivery.

2. DELIVERY

RCA will do its best to meet delivery dates, but shall not be liable in damages or otherwise for delays, nor shall purchaser be relieved of performance because of delays.

3. PATENT LICENSE

The equipment furnished is licensed for radio telephone or television broadcast transmission under all United States patents owned by RCA or under which RCA is licensed for such equipment.

4. PATENT PROTECTION CLAUSE

RCA at its own expense will defend any suit which may be brought against purchaser for infringement of United States patents by the equipment furnished when sold or used for radio telephone or television broadcast transmission and in any such suit will satisfy any final award for such infringement. This is upon the condition that purchaser gives RCA prompt notice of such suit and full opportunity to conduct the defense thereof. No costs or expenses shall be incurred for the account of RCA without its written consent. If purchaser's sale or use of such equipment for radio telephone or television broadcast transmission shall be prevented by permanent injunction, RCA shall substitute for the infringing equipment or parts other equally suitable equipment or parts, or at RCA's option obtain for purchaser the right to sell or continue the use of such equipment, or at RCA's option take back such equipment and refund any sums purchaser has paid RCA therefor, less a reasonable amount for use, damage and obsolescence.

5. WARRANTY

RCA warrants the equipment to be free from defects in material and workmanship under normal use and service for a period of one year from the date of delivery. RCA's obligations under this warranty are limited to the repair or replacement of defective parts and the shipment of such repaired or replacement parts to purchaser, f.o.b. factory. Electron tubes bear only the warranty accompanying them at the time. Equipment furnished by RCA, manufactured by another, bears only the warranty given by such other manufacturer. No warranties other than those set forth in this section are given or are to be implied with respect to the equipment furnished hereunder. In no event shall RCA be liable for consequential damages.

6. OTHER CONDITIONS

- (a) Modifications of the equipment by RCA or its suppliers may be made from time to time prior to delivery for reasons such as improvement in performance, simplification in design, availability of materials, etc., but not to such an extent that the performance will be materially affected.
- (b) This order shall not be binding upon RCA until accepted by it in writing at Camden, New Jersey.
