

Easement Track Length for Different End Angles and Radii

The Length Given In This Drawing Represents The Length Of The Easement As Depicted By The Arrows.
 The Actual Length Of The Track Which Makes Up The Easement Is Obtainable By Selecting The Easement And Then Right Clicking And Asking AnyRail To Make It A Straight Piece Track.
 The Value That Pops Up In The Box Initially Is The Total Length Of The Piece Of Track.
 E.G. - A 30° 24 Inch Radius Easement On This Drawing Measures At 21 31/64",
 But Total Length Of The Easement Track Is 22 7/64".
 To Include Every Easement Tracks Total Length Would Take Forever. Sorry.
